OBJECTIVES

The objectives in brief are as follows:

1. To analyze the role of SHG Model in generation of savings and employment.
2. To find the degree of association between Micro credit and savings.
3. To find out the relationship between Micro credit and employment.
4. To identify the factors contributing towards formation of the self help group.
5. To find out the impact of micro credit on generation of savings.
HYPOTHESIS

The following hypothesis are the flag poles of the study.

Hypothesis 1:

$H_0$: There exists no association between Micro Credit and Savings.

$H_1$: There exists an association between Micro Credit and Savings.

Hypothesis 2:

$H_0$: There is no significant relationship between Savings and Employment.

$H_1$: There exists a relationship between Savings and Employment.

Hypothesis 3

$H_0$: Savings is not dependent upon Micro Credit among the SHGs.

$H_1$: Savings is dependent upon Micro Credit among the SHGs.

Hypothesis 4

$H_0$: Employment is not dependent upon Micro Credit among the SHGs.

$H_1$: Employment is dependent upon Micro Credit among the SHGs.
