METHODOLOGY

Research Area
Some of the Government and private Organisations of Mumbai, Pune regions are taken

Research Design
Exploratory studies have been undertaken. In the ambit of exploratory research strategy, detailed search of the literature has been carried out

Sources of data
Secondary Sources
Apart from documentary sources viz.-books, journals, reports of various committees constituted to look into tax reforms; multiple sources like area based sources viz.-government reports, budget documents, economic surveys and time-series based sources like statistical reports published by government have also been consulted. Tertiary literary sources called search tools have been used to locate relevant secondary literature.

Sample size
50 government Organisations, 50 Private Organisations are being taken.

Data Analysis
The researcher has used only simple statistical techniques like percentage, compound annual rate of growth for data analysis and interpretation.

The computation of findings is made manually by the researcher. The most appropriate techniques and tests of statistics could not be used in the study due to lack of data and skills.
