Objectives of the Study

The present study attempts:

1. To synthesise the functioning of the NGOs.
2. To study the performance of NGOs in Sirsa district.
3. To know the contribution of the NGOs in terms of activities in the society.
4. To suggest to the NGO-promoters for further development of NGOs and to recommend the paths for NGOs for a sustainable growth track.

Hypotheses of the Study

In view of exploratory research carried out by collecting information from the knowledgeable persons and review the existing literature, the following hypotheses have been developed:

$H_1$: All NGOs in Sirsa are performing best.

$H_2$: All NGOs have sound financial position.
